Dear Patrick Vusir

It is with great confusion that I read your letter (received April 27, 2022). Your letter clearly indicates that even if I object to this property being listed "Council in consultation with the Heritage Committee can decide to keep the property listed on the Register or to remove it".

Reading over Frequently Asked Questions, I can see no advantage or disadvantage to being listed. I assume if I wanted to demolish any building I would have to get a permit from the City so why is this 60 days notice anything but redundant?

As president of Leajil Management Corporation, I have owned this building for over 40 years. The City has never expressed any interest in this "Historic Building". The City has allowed homeless, drug addicts to sit on our porch, stairs and camp in our backyard causing my tenants to feel unsafe, unheard and ready to move.

Am I missing something? Why are you wasting taxpayer's time and money on a list that means nothing ? (honestly, sending a glossy photo of a building I see every day is over the top ridiculous) Surely this money could be put to better use!!!!

Please respond to this email. I would be very interested to learn who thinks this whole thing is anything but a senseless waste of your time and mine.

Sincerely
Lorraine Van Allen

2.0 196 and 204 Marlborough Street

Subject: Heritage Register Project

Hello,

I received two letters in the mail with regards to properties I own (204 and 196 Marlborough) and them being added to the heritage register.

I kindly would like to deny this request and not have my properties or any other ones we own in Brantford added to the heritage register.

I'm not able to attend the virtual meeting so please accept this email as notice.

Thanks,

Nick Van Dyk

Subject: Non-designated listing for heritage property

Hello there. I recently received a notice about my property being considered as a Non-designated registered property. I do not want to be included on this register as I don't see any value in my ownership of my property (292 Park Ave) being on this list. I believe that these resources being used to designate properties should be spent elsewhere in our ward especially on dealing with homeless people and the cleanup of our parks within our ward. Case in point being I went to Sheri Mar park today with my children and had to throw a used crack pipe in the garbage. This park is a nice place to bring the kids and play at but it doesn't seem like it is a place where I can take them anymore. How long until I find a needle there on the playground? Again; tax dollars need to be spent at addressing this everyday issue in our ward; not a register of heritage houses.

Thanks for your time,

Brent Evans
