To Whom It May Concern;

I am submitting this as a formal appeal to order .

First we have completed the bulk of the order as per the initial letter. This includes the broken windows and repair to the holes in the fascia. The last step remaining is the major renovation of the foundation. This renovation will require excavation and rebuilding of the foundation and can not be completed in the 3 weeks given by the registered mail.

We have been seeking advice from the City Inspector as there are issues with this property and we can not move forward until we receive that advice. Both Robert Waller and myself, Kelly Severn, have attempted several times by both telephone and email to contact Kane Neuhauser for direction to the renovations. We have had no response from the inspector or City Hall.

The problem is this. The property (PLAN BTFD PT LOT 1 S WALNUT) sits on City property. Specifically an old coal road. The renovations would take place in this specific area governed by City property. We are not sure what we are allowed to do and not do and would like an answer before we find ourselves in bigger problems with the City do to alterations of City Property.

As such we are asking that we are given an explanation of permissions and an extension to the order so that we may proceed.

Included is the 150.00\$ Administrative Fee as required.

Any direction and an extension of the order would be truly appreciated.

Thank you
