Re: Circulation of Cultural Heritage Assessment Report for the
Class Environmental Assessment for Downtown Streetscaping.

The City of Brantford has initiated a Class Environmental Assessment (EA) for Downtown Streetscaping. The EA is part of the City's Downtown Brantford Project which aims to create a more attractive and sustainable core that supports increased economic development and growth. The focus of the EA is on finding solutions to improve walkability, accessibility, and underground infrastructure; this will allow for additional development, enhance infrastructure for all transportation modes, and increase pedestrian capacity.

This Cultural Heritage Assessment Report is being circulated to the Brantford Heritage Committee for review and comment. Staff requests that the Brantford Heritage Committee provide any comments it may have on the study via the following resolution at the May 30, 2022 Committee meeting:

"THAT the following comments regarding the Cultural Heritage Assessment Report for the Class Environmental Assessment for Downtown Streetscaping BE FORWARDED to Staff:

1. _____;
2. _____; and
3. _____."

A handwritten signature in blue ink, appearing to read "P. Vusir".
